Subject: Proposed Discussion Topics for May 30, 2001 Meeting on the Bingham Canyon  
Mine Reclamation and Water Management Plans, DOGM Permit #M/035/002

Dear Mr. Hedberg:

A meeting was held on March 27, 2001 to discuss Division of Oil, Gas and Mining and Division of Water Quality comments on the 1998 Update of the Reclamation Plan for DOGM permit #M/035/002 and on the June 2000 Bingham Canyon Mine Water Management Plan. At the March 27 meeting, Kennecott Utah Copper (Kennecott) and State personnel, determined that the next meeting would be held on May 30, 2001 and that Kennecott should propose the topics for discussion. Kennecott would like to confirm the meeting date of May 30 and will be prepared to present information and to discuss issues relating to water management. This will include a presentation on CERCLA and NRDC issues, long term water management plans, and on various pit lake scenarios. If you have any questions or comments about the proposed meeting topics please contact me at 569-7499 or Rich Borden at 252-3651.

Sincerely,

Paula Doughty  
Manager, Environmental Compliance
